RH REPORTS THIRD QUARTER FISCAL 2017 FINANCIAL RESULTS

Company Confirms Preliminary Results Announced on November 15, 2017

Corte Madera, CA – December 5, 2017 – RH (NYSE: RH) today announced third quarter fiscal 2017 results and Chairman and Chief Executive Officer, Gary Friedman, provided an update on the Company's continued evolution and outlook.

RH leadership will host a Q&A conference call at 2:00 p.m. PT (5:00 p.m. ET) today.

Third Quarter Highlights

- Net revenues increased 8% on top of a 3% increase last year despite an approximate 1% negative impact from Hurricanes Harvey and Irma.
- Comparable brand revenues increased 6% compared to a 6% decrease last year.
- GAAP net income increased to \$13.2 million despite a negative impact of approximately \$1.3 million from Hurricanes Harvey and Irma and includes a positive impact of approximately \$2.5 million related to a lower effective tax rate. This compares to GAAP net income of \$2.5 million last year.
- Adjusted net income increased to \$24.4 million despite a negative impact of approximately \$1.3 million from Hurricanes Harvey and Irma and includes a positive impact of approximately \$2.5 million related to a lower effective tax rate. This compares to adjusted net income of \$8.0 million last year.
- GAAP diluted earnings per share increased to \$0.56 despite a negative impact of approximately \$0.05 from Hurricanes Harvey and Irma and includes a positive impact of approximately \$0.11 related to a lower effective tax rate. This compares to GAAP diluted earnings per share of \$0.06 last year.
- Adjusted diluted earnings per share increased to \$1.04 despite a negative impact of approximately \$0.05 from Hurricanes Harvey and Irma and includes a positive impact of approximately \$0.11 related to a lower effective tax rate. This compares to adjusted diluted earnings per share of \$0.20 last year.

To Our People, Partners, and Shareholders,

Our third quarter results are beginning to demonstrate the earnings power of our new membership model, and a dramatically more efficient operating platform. Adjusted net revenues for the quarter increased 8%, despite a 1% negative impact from Hurricanes Harvey and Irma. Adjusted diluted earnings per share increased 420%, and reached \$1.04 for the quarter, despite a \$0.05 per share negative impact from the hurricanes and including a \$0.11 per share positive impact due to a lower effective tax rate, versus adjusted diluted earnings per share of \$0.20 a year ago.

Our core RH business continued to build momentum as comparable brand revenues increased 6% in the quarter, on top of a 6% decrease a year ago, with merchandise margins up sharply versus last year. Investments in our RH Interior Design business, a key benefit of membership, continues to evolve the brand from creating and selling products to conceptualizing and selling spaces, deepening our relationship with customers, and positioning RH as the leading luxury interior design platform in the country.

Regarding our balance sheet, in the second quarter we completed our share buyback program resulting in 20.2 million shares of RH stock repurchased in the first half of fiscal 2017, or 49.5% of the shares outstanding at the beginning of the year. We believe that our aggregate \$1 billion of share repurchases will continue to be an excellent allocation of capital for the long term benefit of our shareholders. We retired the \$100 million second lien term loan in the third quarter, and have approximately \$480 million of aggregate debt, outside of our convertible notes that are due June 2019 and June 2020. Based on our forecasted cash flow of \$420 million to \$440 million for fiscal 2017, we expect our leverage ratio to be approximately 4 times trailing 12 month adjusted EBITDA by year end. Based on continued strong cash flow generation in 2018 and beyond, our current plan is to repay the convertible notes in cash to minimize dilution. Based on the rapid improvement in our balance sheet over the last six months and the continuing strong

performance of our business under the membership model, we currently have multiple low-interest financing options available to us and expect further improvement in our balance sheet and capital mix in the year ahead.

A Simplified and More Efficient Business Model and Operating Platform

Over the past 18 months, we transformed our business from a promotional to a membership model that is enhancing our brand, streamlining our operations, and improving the customer experience. Simultaneously we began the redesign of our supply chain network, rationalizing our product offer, and transitioning inventory into fewer facilities, creating a more capital efficient model.

With 95% of our core RH business now generated from members, we can confidently declare our move from a promotional to a membership model a success. We currently have approximately 380,000 active RH members, with membership fee income up 37% year-to-date. Other positive trends we are experiencing include reductions in return, exchange, and cancel rates. We believe that membership has eliminated the frantic buying patterns and associated returns, exchanges, and canceled orders that are the result of a chaotic promotional model. We expect these factors to contribute to improved financial performance through higher conversion of demand into revenue, improved margins and lower costs across our operating platform. We also believe that these changes will result in an overall improvement in our customer experience which should yield additional longer term benefits for our brand. Most importantly, the simplification of our business model is enabling our leaders and team members to identify and act on opportunities that would have otherwise gone unnoticed in the chaos that prevails at many other retailers.

We have previously announced the closure of our distribution facilities in Los Angeles and Dallas. We completed the closure of the Los Angeles facility in November and expect to close our distribution center in Dallas by fiscal year end. In total, we will eliminate 1.75 million square feet of distribution space, resulting in savings of approximately \$15 million annually. Moving forward, servicing our business from two coastal distribution centers will result in improved in-stocks, and significantly faster inventory turns. The redesign of our reverse logistics and Outlet business is now 90% complete, enabling us to liquidate customer returns in market, while driving cost savings and margin enhancement of \$15 million to \$20 million annually.

Our New Design Galleries Have the Potential to Double our Retail Sales in Every Market

Our quest to revolutionize physical retailing by building inspiring spaces that blur the lines between residential and retail, indoors and outdoors, home and hospitality has the potential to double our retail sales in every market. Our recent openings of RH Toronto, The Gallery in Yorkdale, and RH West Palm, The Gallery at City Center, are the second and third locations to include an integrated Cafe, Wine Vault, and Barista Bar. There has been an enthusiastic response to our integrated hospitality offering in Toronto and West Palm, with both locations performing similar to the opening weeks and months in Chicago, demonstrating our ability to duplicate our success at the historic 3Arts Club Cafe. In fact, last week Instagram published its most posted cafes and bakeries for 2017, and our 3Arts Club Cafe ranked 7th in the entire country. Our ability to seamlessly integrate food, wine, art and design, activates all of the senses, drives significant traffic into our galleries, and creates a customer experience that cannot be replicated online.

As previously communicated, due to the disruption caused by the ongoing street construction in the Meatpacking District, we have decided to delay the opening of the New York Design Gallery until the Spring-Summer of 2018. We expect an approximate \$9 million negative revenue impact from the delay, and a corresponding \$1.5 million reduction to adjusted net income in the fourth quarter, both of which are included in our fourth quarter guidance. We will continue operating our Flatiron Gallery until the new Meatpacking Gallery opens.

Looking Forward, Driving High Quality, Sustainable Growth

Looking forward, we are forecasting margins to rise and costs to fall as we cycle our efforts to reduce inventory, and benefit from the efficiencies of our new operating model. As discussed at our Investor Day, we will remain focused on optimizing the profitability of our new platform, and will be managing the business with a bias for earnings versus revenue growth. We plan to restrain ourselves from chasing low quality revenues, and instead focus on building a superior operating model that will enable us to compete and win over the long-term. It is becoming clear to us, as we witness the continued failures of high growth - no profit, online pure plays, that the complexities and costs of scaling a furniture business will favor those who have control of their brand from concept to customer, build an integrated multi-channel platform with a superior logistics network, and offer the customer a compelling physical and digital experience.

To that point, in fiscal 2018, we believe we have a clear line of sight toward achieving net revenue growth in the range of 8% to 9% on a comparable 52-week basis and adjusted operating margins in the range of 9% to 10%, while generating free cash flow in excess of \$240 million. Inventory will again be a source of cash in fiscal 2018, and we anticipate lower real estate capital expenditures, as we

move from a leasing to a development model, where we recoup our investments through a sale-leaseback arrangement. In total, we are forecasting fiscal 2018 net capital expenditures to be in the range of \$65 million to \$75 million.

We remain confident in reaching our long term goal of \$4 billion to \$5 billion in North American revenues with industry leading operating margins and returns on invested capital. We also believe there is tremendous potential for the RH brand internationally, and we are currently exploring opportunities to open our first Gallery in London.

Building a Brand with No Peer, and a Customer Experience That Cannot be Replicated Online

We do understand that many of the strategies we are pursuing - opening the largest specialty retail experiences in our industry while most are shrinking the size of their retail footprint and closing stores; moving from a promotional to a membership model, while others are increasing promotions, positioning their brands around price versus product; continuing to mail inspiring Source Books, while many are eliminating catalogs; and refusing to follow the herd in self-promotion on social media platforms, instead allowing our brand to be defined by the taste, style, design and quality of the products and experiences we are creating - are all in direct conflict with conventional wisdom and the plans being pursued by many in our industry.

We believe when you step back and consider; one, we are building a brand with no peer; two, we are creating a customer experience that cannot be replicated online; and three, we have total control of our brand from concept to customer, you realize what we are building is extremely rare in today's retail landscape, and we would argue, will also prove to be equally valuable.

Lastly, we are deeply grateful for our people and partners whose passion and persistence bring our vision and values to life each day, as we pursue our quest to become one of the most admired brands in the world.

Carpe Diem,

Gary

Gary Friedman
Chairman and Chief Executive Officer

Fourth Quarter and Fiscal 2017 Outlook

- Fourth quarter adjusted net income in the range of \$37 million to \$41 million despite an approximate \$1.5 million negative impact as a result of the Company's decision to delay the opening of its New York Design Gallery to Spring-Summer 2018. This outlook assumes an approximate \$2 million tax benefit which corresponds to an expected 35% tax rate. Due to the recent increases in the Company's stock price and its impact on the fully diluted share count, the Company is providing a table to assist in estimating diluted shares outstanding and adjusted diluted earnings per share.
- Fourth quarter net revenues in the range of \$655 million to \$680 million despite a \$9 million negative impact due to the Company's decision to delay the opening of its New York Design Gallery.
- Fiscal 2017 adjusted net income in the range of \$83 million to \$87 million despite the Company's decision to delay the opening of its New York Design Gallery.
- Fiscal 2017 net capital expenditures in the range of \$120 million to \$130 million.
- Fiscal 2017 free cash flow in the range of \$420 million to \$440 million.

Preliminary 2018 Outlook

- Net revenues in the range of \$2.58 billion to \$2.62 billion, representing growth of 6% to 7% on a 52-week vs 53-week basis. On a comparable 52-week vs 52-week basis, net revenue growth is expected to be in the range of 8% to 9%.
- Adjusted operating margin in the range of 9% to 10%.
- Adjusted net income in the range of \$125 million to \$145 million.
- Net capital expenditures in the range of \$65 million to \$75 million.
- Free cash flow in excess of \$240 million.

Non-GAAP Financial Measures

To supplement its condensed consolidated financial statements, which are prepared and presented in accordance with Generally Accepted Accounting Principles ("GAAP"), the Company uses the following non-GAAP financial measures: adjusted net revenue, adjusted net income, adjusted diluted earnings per share, free cash flow and adjusted operating margin (collectively, "non-GAAP financial measures"). We compute these measures by adjusting the applicable GAAP measures to remove the impact of certain recurring and non-recurring charges and gains and the tax effect of these adjustments. The presentation of this financial information is not intended to be considered in isolation or as a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP. The Company uses these non-GAAP financial measures for financial and operational decision making and as a means to evaluate period-to-period comparisons. The Company believes that they provide useful information about operating results, enhance the overall understanding of past financial performance and future prospects, and allow for greater transparency with respect to key metrics used by management in its financial and operational decision making. The non-GAAP financial measures used by the Company in this press release may be different from the non-GAAP financial measures, including similarly titled measures, used by other companies.

For more information on the non-GAAP financial measures, please see the Reconciliation of GAAP to non-GAAP Financial Measures tables in this press release. These accompanying tables include details on the GAAP financial measures that are most directly comparable to non-GAAP financial measures and the related reconciliations between these financial measures.

- [a] Represents costs and inventory charges associated with a product recall initiated in the second quarter of fiscal 2017, as well as an adjustment in the nine months ended October 28, 2017 of the recall accrual related to certain product recalls initiated in the fourth quarter of fiscal 2016.
- [b] Represents the non-cash amortization of the inventory fair value adjustment recorded in connection with our acquisition of Waterworks.
- [c] Represents severance expense and certain inventory transfer costs associated with two distribution center closures, one of which was completed in November 2017 and one which is expected to occur in January 2018.
- [d] Represents the estimated cumulative impact of coupons redeemed in connection with a legal claim alleging that the Company violated California's Song-Beverly Credit Card Act of 1971 by requesting and recording ZIP codes from customers paying with credit cards.
- [e] Represents non-cash compensation charges related to a fully vested option grant made to Mr. Friedman in May 2017 and the fully vested option grants made in connection with our acquisition of Waterworks in May 2016.
- [f] Represents the gain on the sale of building and land. As we entered into a short-term lease agreement to lease the property subsequent to the sale, the total gain associated with the sale of this property was amortized over a five month period.
- [g] Represents costs associated with a reorganization, which include severance costs and related taxes, partially offset by a reversal of stock-based compensation expense related to unvested equity awards.
- [h] Represents costs incurred in connection with our acquisition of Waterworks including professional fees.
- [i] Under GAAP, certain convertible debt instruments that may be settled in cash on conversion are required to be separately accounted for as liability and equity components of the instrument in a manner that reflects the issuer's non-convertible debt borrowing rate. Accordingly, in accounting for GAAP purposes for the \$350 million aggregate principal amount of convertible senior notes that were issued in June 2014 (the "2019 Notes") and for the \$300 million aggregate principal amount of convertible senior notes that were issued in June and July 2015 (the "2020 Notes"), we separated the 2019 Notes and 2020 Notes into liability (debt) and equity (conversion option) components and we are amortizing as debt discount an amount equal to the fair value of the equity components as interest expense on the 2019 Notes and 2020 Notes over their expected lives. The equity components represent the difference between the proceeds from the issuance of the 2019 Notes and 2020 Notes and the fair value of the liability components of the 2019 Notes and 2020 Notes, respectively. Amounts are presented net of interest capitalized for capital projects of \$0.8 million and \$0.6 million during the three months ended October 28, 2017 and October 29,

2016, respectively. Amounts are presented net of interest capitalized for capital projects of \$2.3 million and \$1.9 million during the nine months ended October 28, 2017 and October 29, 2016, respectively.

[j] Represents the loss on extinguishment of debt related to the second lien term loan which was repaid in full in October 2017.

[k] The adjustment for the three months ended October 28, 2017 represents the tax effect of the adjusted items based on our effective tax rate of 32.1%. The nine months ended October 28, 2017 includes an adjustment to calculate income tax expense at an adjusted tax rate of 35.4%, which is calculated based on the weighted-average fiscal 2017 quarterly adjusted effective tax rates. The adjustments for the three and nine months ended October 29, 2016 represent the tax effect of the adjusted items based on our effective tax rates of 41.4% and 38.9%, respectively.

[l] Adjusted net income is a supplemental measure of financial performance that is not required by, or presented in accordance with, GAAP. We define adjusted net income as net income (loss), adjusted for the impact of certain non-recurring and other items that we do not consider representative of our underlying operating performance. Adjusted net income is included in this press release because management believes that adjusted net income provides meaningful supplemental information for investors regarding the performance of our business and facilitates a meaningful evaluation of actual results on a comparable basis with historical results. Our management uses this non-GAAP financial measure in order to have comparable financial results to analyze changes in our underlying business from quarter to quarter.

[a] During the fourth quarter of fiscal 2016 management determined that we had incorrectly reported negative cash balances due to outstanding checks in the accounts payable and accrued expenses financial statement line item in our consolidated balance sheets without properly applying the limited right of offset against cash and cash equivalents. The revision decreased net cash provided by operating activities by \$10.1 million for the nine months ended October 29, 2016.

[b] Free cash flow is calculated as net cash provided by (used in) operating activities and net proceeds from sale of assets held for sale, less capital expenditures, construction related deposits, purchase of trademarks and domain names, payments on build-to-suit lease transactions and payments on capital leases. Free cash flow excludes all non-cash items, such as the non-cash additions of property and equipment due to build-to-suit lease transactions. Free cash flow is included in this press release because management believes that free cash flow provides meaningful supplemental information for investors regarding the performance of our business and facilitates a meaningful evaluation of operating results on a comparable basis with historical results. Our management uses this non-GAAP financial measure in order to have comparable financial results to analyze changes in our underlying business from quarter to quarter.

RH
FOURTH QUARTER AND FISCAL 2017 OUTLOOK
(In millions, except per share data)

RH's fiscal 2017 will include 53 weeks compared to the prior fiscal year which included 52 weeks. The Company is providing the following outlook for the fourth quarter and fiscal 2017:

	Fourth Quarter 2017	Fiscal Year 2017
Adjusted net revenues	\$655 – \$680	\$2,429 – \$2,454
% growth vs. prior year	11% – 15%	14% – 15%
Adjusted gross margin (% of net revenues)	37.1% – 37.4%	34.7% – 34.9%
Adjusted selling, general, and administrative expenses (% of net revenues)	26.8% – 27.0%	28.0% – 28.1%
Adjusted operating income	\$66 – \$72	\$162 – \$169
% growth vs. prior year	30% – 42%	58% – 64%
Adjusted operating margin (% of net revenues)	10.1% – 10.6%	6.7% – 6.9%
Adjusted net income	\$37 – \$41	\$83 – \$87
% growth vs. prior year	33% – 48%	60% – 68%
Capital expenditures		\$120 – \$130
Asset sales		\$15
Free cash flow		\$420 – \$440

Note: RH's fiscal 2017 will include 53 weeks compared to the prior fiscal year which included 52 weeks. The extra week in fiscal 2017 is expected to add approximately \$44 million to \$46 million in net revenues for the fourth quarter and fiscal year. The Company's adjusted net income does not include certain charges and costs. The adjustments to net revenues, gross margin, selling, general and administrative expenses, operating income, operating margin and net income in future periods are generally expected to be similar to the kinds of charges and costs excluded from such non-GAAP financial measures in prior periods, such as unusual non-cash and other compensation expense; one-time income tax expense or benefits; legal claim related expenses; recall accruals; reorganization costs including severance costs and related taxes; non-cash amortization of debt discount; and charges and costs in connection with the acquisition of Waterworks, among others. The exclusion of these charges and costs in future periods will have a significant impact on the Company's adjusted net revenues, adjusted gross margin, adjusted selling, general and administrative expenses, adjusted operating income, adjusted operating margin and adjusted net income. The Company is not able to provide a reconciliation of the Company's non-GAAP financial guidance to the corresponding GAAP measures without unreasonable effort because of the uncertainty and variability of the nature and amount of these future charges and costs.

At stock prices in excess of \$172, we will incur dilution related to the convertible notes and our obligation to deliver additional shares in excess of the dilution protection provided by the bond hedges. The calculation also includes assumptions around the timing and number of options exercises. Actual diluted shares outstanding may differ if actual exercises differ from estimates.
